A Reasonable Life: Toward a Simpler, Secure, More Humane Existence Ferenc Máté

"If 'in adversity is hidden opportunity' then lurking around the corner must be the Mother of All Great Chances."

With our environment on its knees, our great myths and cities crumbling, Ferenc Máté argues in this passionate, darkly funny book that now is the time to begin our lives anew, on a more human scale. With our lust for mechanized "progress" we have damaged and endangered not only our planet but also our communities, families, and even friendships. He warns that our environmental movement by itself is as effective as "trying to stop a freight-train with a feather." He argues for fundamental change--by each of us. We must place simple human needs and the human spirit far ahead of material wealth. We must rethink our concepts of career, home life, habits, and what we call security and success. And we must resurrect our foundations: the small town, the family, and a dignified caring self. Only then will our earth become the paradise we once had and mistakenly took for granted.
