Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers Harris D. Frederickson
Increase your understanding of Physics Concepts by using simple multiple-choice questions that build on each other. Enhance your time-efficiency by reading these on your smartphone or tablet during those down moments between classes or errands. Make this a game by using the study sets to quiz yourself or a friend and reward yourself as you improve your knowledge.

This book is the fifth volume of a series of books that uses multiple-choice questions and answers to help high school and college students to test and improve their understanding of relevant topics in Physics. The series is oriented towards students who are taking an introductory conceptual physics course. Higher-level students who want to refresh or enhance their understanding of the core concepts can also benefit.

More than 150 multiple-choice questions and answers are presented in this book. They deal with the following topics in the subject-area of Sound: (a) Vibrations & Waves, and (b) Sound.

Section 1 of the book presents multiple-choice questions in the following areas: (a) Definitions, (b) Formulae, and (c) Concepts. Section 2 presents the correct answers to these questions. Section 3 presents study-sets of multiple-choice questions. Each study-set is designed to take 30 minutes to 1 hour of study-time. Section 4 presents the correct answers to these study-sets. Section 5 presents explanations for the correct answers to study-set A questions (sets 1A, 2A) from sections 3 & 4.

The author is an award-winning teacher and research scientist with 10+ years of experience teaching and mentoring both undergrad and grad students at the college and university levels. His desire is to help high school and college students to enhance their understanding of physics.

About the Physics Concept Questions Series:
the books (and topics covered) in the series are as follows.

Book 1 (Mechanics-1): Newton’s 1st Law of Motion, Linear Motion, Newton’s 2nd Law of Motion, Newton’s 3rd Law of Motion, and Momentum.

Book 2 (Mechanics-2): Energy, Rotational Motion, Gravity, and Projectile Motion.

Book 3 (Matter): Atomic Nature of Matter, Solids, Liquids, Gases, and Plasmas.

Book 4 (Heat): Temperature, Heat, Heat Transfer, and Phase changes.

Book 5 (Sound): Vibrations, Waves, and Sound.

Book 6 (Electricity & Magnetism): Electrostatics, Electric Current, and Magnetism.

Book 7 (Light): Properties of Light, Color, Reflection & Refraction, Light Waves, Light Emission, and Light

Quanta.

From reader reviews:

Clarence Riley:

With other case, little men and women like to read book Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers. You can choose the best book if you want reading a book. Provided that we know about how is important a new book Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers. You can add information and of course you can around the world by the book. Absolutely right, simply because from book you can learn everything! From your country until finally foreign or abroad you may be known. About simple issue until wonderful thing you could know that. In this era, we can open a book or perhaps searching by internet unit. It is called e-book. You may use it when you feel bored to go to the library. Let's examine.

Lori Suda:

This Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers are reliable for you who want to become a successful person, why. The reason of this Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers can be among the great books you must have is usually giving you more than just simple looking at food but feed you with information that possibly will shock your before knowledge. This book is usually handy, you can bring it just about everywhere and whenever your conditions throughout the e-book and printed people. Beside that this Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers forcing you to have an enormous of experience for example rich vocabulary, giving you trial of critical thinking that we realize it useful in your day exercise. So , let's have it and revel in reading.

Benjamin Deloatch:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you are experiencing problem with the book compared to can satisfy your short period of time to read it because all this time you only find e-book that need more time to be study. Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers can be your answer because it can be read by anyone who have those short time problems.

Erick Graf:

That publication can make you to feel relax. This book Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers was bright colored and of course has pictures on there. As we know that book Physics Concept Questions - Book 5 (Sound): 150+ Questions & Answers has many kinds or category. Start from kids until adolescents. For example Naruto or Detective Conan you can read and believe that you are the character on there. Therefore , not at all of book are make you bored, any it offers up you feel happy, fun and relax. Try to choose the best book to suit your needs and try to like reading that will.
