TEORIA RUDIMENTARIA SOBRE ESTADOS ENTRELAZADOS Y GEMELOS.: La cuestión Schrödinguer (Spanish Edition) G.G. MELIES
Scott Moreno colono en Marte, y Andrew Moreno militante terro-ecologista del Greenwar, son gemelos separados por la distancia entre el planeta rojo y La Tierra. De pequeños siempre experimentaron una extraña conexión que se potencia con el estrés. ¿Puede la fuerza de voluntad y el deseo de reencuentro entre hermanos revertir la entropía?
Es una novela ambientada en Marte y La Tierra en el año 2104 donde se plantea un paralelismo entre la comunicación de partículas y la mente humana desde la concepción.
Inspirada en la novela de 1844 de Alejandro Dumas, "Los hermanos corsos", la historia narra sobre los pormenores de vivir en Marte, sumado al arrepentimiento por la lejanía de la familia, en una época donde La Tierra logró el orden ecológico y comienza a desestimar la colonización del planeta rojo, en una América recientemente sacudida por un rebrote del mensaje de intolerancia hacia los latinos que intenta recuperarse por rememorar a la Alemania de 1930.

¿Usted..., presiente que le sucede a su hermano en la distancia?
¿Puede decir el límite en kilómetros de ese presentimiento?
