This new book is based on Cash's Textbook of Orthopaedics and Rheumatology for Physiotherapists. It covers General Topics, Common Conditions, Less Common Conditions, The Hand and Foot in Specific Rheumatic Conditions, and Paediatrics. Rheumatological Physiotherapy has been completely updated and now features a new larger format, 2-colour throughout, and more than 100 illustrations. The contents have been updated to bring this book totally up to date with current practice. An important feature of this well-written new book is that it stands completely alone from orthopaedics and reflects the fact that rheumatological physiotherapy is a fast growing area of specialty.

* The new two-colour design highlights important information -- readers can access it fast! * Helpful chapter outlines summarise upcoming content information. * Discusses new concepts in physiotherapy treatment that help the reader apply appropriate treatment methods to each client. * New and redrawn artworks. * New larger format.

Spanish version also available, ISBN: 84-8174-488-3
