The Rightful Place of Science: Science on the Verge Andrea Saltelli, Alice Benessia, Silvio Funtowicz, Mario Giampietro, Angela Guimaraes Pereira, Jerome Ravetz, Roger Strand, Jeroen P. van der Sluijs
A crisis looms over the scientific enterprise. Not a day passes without news of retractions, failed replications, fraudulent peer reviews, or misinformed science-based policies. The social implications are enormous, yet this crisis has remained largely uncharted—until now.

In *Science on the Verge*, luminaries in the field of post-normal science and scientific governance focus attention on worrying fault-lines in the use of science for policymaking, and the dramatic crisis within science itself. This provocative new volume in *The Rightful Place of Science* also explores the concepts that need to be *un*learned, and the skills that must be relearned and enhanced, if we are to restore the legitimacy and integrity of science.
