Model Making: A Basic Guide (Norton Professional Books for Architects & Designers) Martha Sutherland

A primer for everyone interested in building models.

Model Making is an introduction to the craft for students of architecture; landscape architecture; urban, interior, and theatrical design; or anyone who has the need or desire to make the large small. In concise instructions and nearly 200 charming, easy-to-follow drawings the book details the construction of both study and presentation models in common materials such as paper, chipboard, illustration board, foamcore, and balsa. It also covers topics such as choosing the right materials for the job, rendering contoured sites, and fashioning entourage. 200 illustrations

From reader reviews:

Shawn Francis:

Reading a publication tends to be new life style on this era globalization. With reading you can get a lot of information which will give you benefit in your life. Along with book everyone in this world may share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their very own reader with their story or their experience. Not only the storyplot that share in the publications. But also they write about the information about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors these days always try to improve their skill in writing, they also doing some investigation before they write to their book. One of them is this Model Making: A Basic Guide (Norton Professional Books for Architects & Designers).

Raymond Childers:
