Written by two leading experts in the field, Acupuncture in Neurological Conditions aims to improve patient care by combining Western and Traditional Chinese Medicine (TCM) concepts of treatment. The language of TCM is uniquely combined with that of evidence-based clinical reasoning to provide an approach relevant to both acupuncture and physiotherapy clinical practice. All major types of neurological conditions encountered in clinical practical are examined. Chinese medical patterns relevant to the application of acupuncture are described, as well as key patterns of dysfunction based on a Western medical perspective. The place of acupuncture within the overall management of different neurological conditions is also discussed. Clinical reasoning options from both TCM and Western medical perspectives are provided, and illustrated by real cases from clinical practice forming a sound platform for true integrated medicine.

Provides detailed examination of all major types of neurological conditions encountered in clinical practice.
