As the world rushed in to profit from California's gold strike of 1848, many Jews joined the throng, not necessarily to mine but to sell merchandise to prospectors. Some settled in Napa Valley, a basin of rich agricultural land nestled between two mountain ridges. These pioneers conducted business, making significant contributions to the development of the Valley. Participating in cultural life, holding public office, and leading organizations, many also made fine wines, something perfected thousands of years ago as commanded in scripture. They continue to do so, and this is their story told through photographs.
