Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics)

George D.J. Phillies

Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics) George D.J. Phillies
This textbook for graduates and advanced undergraduates in physics and physical chemistry covers the major areas of statistical mechanics and concludes with the level of current research. It begins with the fundamental ideas of averages and ensembles, focusing on classical systems described by continuous variables such as position and momentum, and using the ideal gas as an example. It then turns to quantum systems, beginning with diatomic molecules and working up through blackbody radiation and chemical equilibria. The discussion of equilibrium properties of systems of interacting particles includes such techniques as cluster expansions and distribution functions and uses non-ideal gases, liquids, and solutions. Dynamic behavior -- treated here more extensively than in other texts -- is discussed from the point of view of correlation functions. The text concludes with the problem of diffusion in a suspension of interacting hard spheres and what can be learned about such a system from scattered light. Intended for a one-semester course, the text includes several "asides" on topics usually omitted from introductory courses, as well as numerous exercises.

From reader reviews:

Jenny Dill:

Have you spare time for a day? What do you do when you have more or little spare time? Yes, you can choose the suitable activity with regard to spend your time. Any person spent all their spare time to take a stroll, shopping, or went to typically the Mall. How about open or read a book called Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics)? Maybe it is to become best activity for you. You know beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with it has the opinion or you have some other opinion?

German Montoya:

Reading a book can be one of a lot of activity that everyone in the world loves. Do you like reading book and so. There are a lot of reasons why people like it. First reading a publication will give you a lot of new details. When you read a publication you will get new information because book is one of many ways to share the information or maybe their idea. Second, reading through a book will make anyone more imaginative. When you examining a book especially fictional book the author will bring that you imagine the story how the figures do it anything. Third, you can share your knowledge to other folks. When you read this Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics), you may tells your family, friends and soon about yours guide. Your knowledge can inspire others, make them reading a e-book.

Derek Winter:

Playing with family in a very park, coming to see the coastal world or hanging out with pals is thing that usually you may have done when you have spare time, subsequently why you don't try point that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics), you may enjoy both. It is great combination right, you still would like to miss it? What kind of hangout type is it? Oh can occur its mind hangout fellas. What? Still don't have it, oh come on its identified as reading friends.

Loretta Yoder:

Publication is one of source of knowledge. We can add our know-how from it. Not only for students but also native or citizen need book to know the up-date information of year to be able to year. As we know those ebooks have many advantages. Beside we all add our knowledge, also can bring us to around the world. By book Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics) we can have more advantage. Don't you to be creative people? Being creative person must love to read a book. Just choose the best book that acceptable with your aim. Don't possibly be doubt to change your life at this time book Elementary Lectures in Statistical Mechanics (Graduate Texts in Contemporary Physics). You can more inviting than now.
