Foundations of Application Management Rick Sturm, Winston Bumpus
An insider's guide to more effective application monitoring and control Foundations of Application Management Monitoring applications on all of your corporation's systems is a daunting, never-ending challenge that has probably caused you to lose more than your share of sleep. It's tough to keep track of the currently installed software and to make sure that only the legally licensed versions of software are in use across the organization. So far, there has been very limited success managing application systems. The challenge arises because software components may be running on thousands of PCs across, our organization, many with different operating systems. This book will help you meet the challenges of managing applications in todays highly distributed computing environment. Written by leaders in the movement for better application management, this book gives you practical and proven advice including: Clear definitions of application management disciplines What to look for in commercial application management tools Coverage of the mainframe, desktop, and distributed computing environments A review of the CIM, DMI, SNMP, POSIX, ARM, and AMS standards Practical guidance for achieving application management Details about current management tools Wiley Computer Publishing. Timely. Practical. Reliable. Visit our Web site at www.wiley.com/compbooks/

From reader reviews:

Betty Benner:

Nowadays reading books be than want or need but also become a life style. This reading behavior give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The info you get based on what kind of reserve you read, if you want get more knowledge just go with education books but if you want feel happy read one along with theme for entertaining for instance comic or novel. The actual Foundations of Application Management is kind of e-book which is giving the reader unpredictable experience.

Jimmy Putnam:

Your reading sixth sense will not betray a person, why because this Foundations of Application Management reserve written by well-known writer we are excited for well how to make book that may be understand by anyone who have read the book. Written within good manner for you, dripping every ideas and producing skill only for eliminate your current hunger then you still hesitation Foundations of Application Management as good book not just by the cover but also with the content. This is one reserve that can break don't determine book by its protect, so do you still needing a different sixth sense to pick this specific!? Oh come on your looking at sixth sense already said so why you have to listening to an additional sixth sense.

Jan Dixon:

This Foundations of Application Management is great reserve for you because the content which is full of information for you who also always deal with world and have to make decision every minute. That book reveal it information accurately using great arrange word or we can state no rambling sentences inside it. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but challenging core information with wonderful delivering sentences. Having Foundations of Application Management in your hand like finding the world in your arm, info in it is not ridiculous 1. We can say that no guide that offer you world inside ten or fifteen small right but this e-book already do that. So , it is good reading book. Heya Mr. and Mrs. stressful do you still doubt that will?

June Slater:

In this age globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The condition of the world makes the information better to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher in which print many kinds of book. Typically the book that recommended to your account is Foundations of Application Management this reserve consist a lot of the information of the condition of this world now. This specific book was represented how does the world has grown up. The vocabulary styles that writer require to explain it is easy to understand. Typically the writer made some exploration when he makes this book. That's why this book suitable all of you.
